04 Optimises nutrient utilisation for sustained energy

ABOUT FAMAS DAIRY BUCKETS

FAMAS Dairy Bucket is a premium nutritional supplement tailored for high-producing dairy cows. Its expertly balanced blend of vitamins, minerals, and proteins supports strong lactation, ensuring that cows receive the essential nutrients they need to boost milk yield and quality. This product not only enhances milk production but also supports reproductive efficiency and maintains optimal body condition during demanding lactation periods, helping your herd achieve peak performance.

HOW TO USE

Mix the recommended dosage thoroughly with the daily feed ration as directed by a veterinarian or animal nutritionist. Always ensure that clean, fresh water is available.

Ask for FAMAS at any Agrovet near you

Bulk orders delivered to shops, farms and dairy cooperatives.

Use at the recommended dosage, as directed by a veterinarian or animal nutritionist.
